

Sleepy bird's flying

Instructions for parents

1 Cut along the solid lines only. Put the image of Sleepy Bird to the other side.

2 Fold on the dotted lines. Fold A toward you. Fold B away from you.

3 Fold D and C over each other so they overlap.

4 Fold the bottom up and put a paper clip on it.

5 Hold the Sleepy Bird's Flying by the paper clip. Throw it like a baseball, as high and far as you can. It will spin to the floor. You can also stand on a chair or on the stairs and drop it. Ask a grown-up if you can drop it out the window.
